IMPORTANT INFORMATION

Resume personal data. Please review this resume carefully. If you are thoroughly impressed, or even slightly impressed, and wish to obtain more information about this unique individual contact Steve O'Neill at steveo@hobodrifter.com or by phone (303) 868-9053.

With the heart and mind of an entrepreneur, I have a passion for building genuine relationships with anyone I encounter, believing those are the base of any strong business. My objective is to improve upon my writing and marketing skills to gain valuable experience through any and all opportunities that present themselves. Constant and consistent growth in my ability to effectively communicate with a target audience is my number one priority. Communication is the key to countless opportunities. I've successfully worked in a team environment to achieve a common goal, while also possessing the drive and determination to build a personal client base through networking and recommendations. With a design oriented background, I enjoy problem solving and discovering new solutions. Simplification, ingenuity and efficiency are the foundation of my work.

HOBODRIFTER MEDIA, LLC*Owner & Writer*

Traveling with a tour guide has its advantages, but there comes a time to travel alone and blaze your own trails. HoboDrifter Media is my solo adventure into the world of freelance copywriting, guerilla marketing, research & writing pertaining to a future motivational publication, and the overall process of life simplification.

VECTOR MARKETING/CUTCO*Sales Representative & Assistant Manager*

Fantastic experience that entailed one-on-one presentations with a self established client based built through recommendations and networking events. Rapid movement up the CUTCO sales ladder (\$10,000 in 10 weeks) was rewarded with an Assistant Manager promotion. Responsibilities grew to include running interviews, personal coaching, and advanced training of new representatives. CUTCO's involvement with a non-profit, *The Front Row Foundation*, sparked my philanthropic interest leading to over \$900 in donations raised in 5 months - I became the top rep in the Southwest Region for donations during the Summer campaign.

TRANSIENT HOBODRIFTER*Self Guided European Adventurist*

A gap in employment, yes, but a world of self discovery awaited. With nothing more than a 40 lb backpack, a Eurail pass and a sense of exploration I departed for Europe with a one-way ticket in search of new experiences.

(chronicled at www.hobodrifter.com)

VANBERG CONSTRUCTION, INC.*Project Manager Assistant & Laborer*

Involved with a wide variety of residential remodeling tasks: demolition, project isolation, framing, plumbing, electrical work, sub-contractor coordination, and job planning. Responsible for introducing in-house design (3D & CAD drawings) for both sales purposes and schematics used on-site. Gained a well rounded perspective of residential construction from designs on paper, to pouring the foundation, to finish carpentry.

Departures

MCDERMOTT PLANNING & DESIGN, INC.

Intern Architect

Thrown straight into the fire on the first day of an internship: two weeks of field verification with minimal training. Positive results yielded a position as the primary employee for field verifications - measurements, photographs, on-site sketches, etc. - culminating with the organization & input of the aforementioned data into construction documents and pricing plans. Responsible for introducing in-house 3D modeling & animation for client presentations. Developed marketing templates for newsletters & proposals to increase efficiency.
